REV. T. G. SMITH, general secretary of Queen's College, Kingston, came in on Monday's train and remained until Wednesday. He spent Tuesday in collecting information regarding Edmonton and surrounding district for publication on his return home.

THE May number of the Manitoban is to hand improved in typographical appearance and containing several interesting articles on the Red River expedition, the Esquimaux of the East coast of Hudson's Bay, etc. The subscription price is \$1 a year.

MISS TAYLOR, daughter of U. S. consul Taylor, of Winnipeg, left for Mackenzie river on Tuesday.

W. T. LIVOCK, of the H. B. Co., returned from a trip to Lac la Biche and Victoria on Monday.

UNION lake trading post, west of Fort Pitt has been added to the H. B. Co. trading district of Edmonton.

THE first number of the Canadian Printer and Publisher is to hand. It is a finely printed and illustrated magazine, devoted to the interests of the printers and publishers of Canada. There is a Canadian field for such a journal and the one under notice seems well fitted to occupy its home in Toronto.

A COPY of the pamphlet, containing an illustrated article on the Edmonton district, reprinted from the Western World for the Edmonton town council, has been received. The printing and illustrations are good, but the shape of the pamphlet makes it rather unwieldy. Five thousand copies have been printed for free distribution.

J. DARLEY HARRISON, M.D., son of Dr. Harrison, president of the University of New Brunswick, is on his way to Edmonton to practice his profession. Dr. Harrison is a gold medalist of the University of New Brunswick and an honor man of McGill college, of Montreal. He has been hospital physician at the Montreal general hospital for the past year and a half.

J. B. BEBBEE, Mrs. Beebe and Geo. W. Ingraham, of Fairfield, Washington, U. S. A., who have been land prospecting for the past two weeks in the country around and east of Egg and Beaver lakes, returned on Tuesday highly pleased with the country they saw and determined to locate. They will return in about six weeks accompanied by friends who will locate with them. They are people of means and will be a most valuable acquisition to the country.

THE party of dignitaries of the Roman Catholic church, whose visit to Edmonton was mentioned in last issue, will arrive by special train on Friday. They will remain on the train during Friday night and on Saturday will be met by a deputation from St. Albert who will escort them to that place. They will remain at St. Albert over Sunday and will probably leave for the south during Monday. Archbishop Tache, whose name did not appear in the list published last issue, will be one of the party.

THE survey parties, which arrived a few weeks ago from Ottawa, have re-staked township 54, range 21, townships 55, ranges 18, 19 and 20, and the east half of township 54, range 19. They are now engaged in subdividing township 50, range 19, at the southwest corner of Beaver lake, and also the south and east three-quarters of township 51, range 19, the southeast quarter of township 52, range 19, and the west side of township 51, range 18, immediately along part of the west shore of the lake, the rest of the township being in the lake.

THE Western World contains an illustrated article devoted to the Edmonton district. A view of Edmonton from the southeast gives the best idea of the place and its beauty of situation of any engraving that has yet appeared. The views of D. Ross' coal mine, P. Heimick's farm at Fort Saskatchewan, John Cameron's house Edmonton, James Price's farm, Belmont, and washing for gold on the Saskatchewan, are all excellent. The same number of the World contains an illustrated article on the Red Deer district, giving a beautiful scene on the Red Deer river and Leo Gaetz' house, Red Deer town. Another article entitled, "Along the C. & E. Railway," has a view of the Hotel Edmonton, South Edmonton. There are also articles on the Souris river district, Manitoba, East

Kootenay district, of British Columbia, and the petroleum and coal deposits of the Crow's Nest pass.

D. L. CLINK, of Battle river Indian agency, was in town yesterday. The Indians in the Battle river agency finished seeding on the 19th and held a celebration in honor of the occasion, on Ermine Skin's reserve, at which there was horse and foot racing for prizes and a dance in the evening. The Indians put in 550 bushels of wheat this season, which was completed by April 23rd. The blade is now four inches above ground and looking well. They have since put in over 190 bushels of oats and 350 bushels of barley. The wheat was put in on fall plowing, and the barley and oats on spring plowing.

A POSTAL card from Sand Point, Washington, U. S. A., gives the information that Jack Hogan, late of Fort Saskatchewan, an ex-policeman, was killed with eight other men by a railway accident near Kalispell, Washington, about May 12th. He was cooking for a construction gang on the Great Northern railway. Two large boarding cars, in which he was employed, went over an embankment fifty feet in height into the Kootenay river. Besides nine men killed a large number were seriously injured. Hogan was well known at Edmonton, having been in the police force at Fort Saskatchewan for several years.

## THE QUEEN'S BIRTHDAY.

Tuesday, May 24th, was celebrated in very good style in Edmonton. The day was fine but windy, and although comparatively little preparation had been made and short notice given, there was a good turnout of people.

### TRAP SHOOTING.

The sweepstakes trap shooting matches of the Edmonton Gun Club were begun, on the race grounds, at 8 o'clock. The shooting was under the rules and regulations of the club, and the objects shot at were tin pigeons. Five shots in each match. The following is the score in the three sweepstakes matches:

	1st	2nd	3rd	Aggregate
F. Hardisty	1	2	2	5
F. Sache	1	3	3	7
J. Brown	4	1	3	8
C. D. T. Becher	2	2	1	5
Inspector Chalmers	2	1	2	5

Messrs. J. Brown, A. Coghlan and W. H. Cooper won the 1st, 2nd and 3rd matches respectively. The gold medal given by S. S. Taylor, ex-president of the club, for the highest aggregate in the three matches, was won by W. H. Cooper, with a score of 10. The silver medal, presented by the club, was won by J. Brown, after shooting off a tie with A. Coghlan and Inspector Chalmers, which also gave the bronze medal, presented by the club as third prize to A. Coghlan.

### BASEBALL.

The baseball match between married and single teams commenced at 10 o'clock. The following is the score by players:

MARRIED.

	1st	2nd	3rd	4th	5th
Single men	3	3	0	4	13
Married men	7	2	1	3	13

The races began at about 1:30, and although the prizes were not large enough to induce the interest of gambling to any great extent, they were large enough for fun. The crowd was not exacting and seemed to be out for a day's pleasure, rather than for "sport," as the word is generally understood.

### HORSE RACES.

1 mile, native ponies, 14 hands or under, best 2 in 3—1st W. Henderson, of Fort Saskatchewan, "Blue Skin," 88; 2nd W. Fielders' "Beauty," 84, 3 entries.

1 mile trot in harness, best 2 in 3—1st G. W. Hislop's "Club," 812; 2nd Joe Dubé's "Diamond Jack," 88, 3 entries.

Gentlemen's race, 1 mile dash, for horses that never won public money, owner's pay: 1st A. Osborne's "Dauby," 80; 2nd J. Horwick's "Nellie," 84, 4 entries.

1 mile running race, best 2 in 3—1st A. Grif-

fin's "Palmena," 810; 2nd Wm. Fielders' "Beauty," 87, 3 entries.

Although only two competitors entered for the foot races, these were the races of the day, the men being the same as ran for a wager on August 10th last. Moosewa, a slight looking and ungainly half-breed from Lake St. Ann and L. H. Tarrant, of Calgary. In personal appearance Tarrant has the advantage, but in speed Moosewa was able to get there at his leisure.

### FOOT RACES.

100 yards dash—1st Dieudonne L'Etiendard, (Moosewa) 87; 2nd L. Tarrant, 88.

220 yards dash—1st Dieudonne L'Etiendard, 87; L. Tarrant, 83.

### LACROSSE.

The lacrosse match was commenced about 4:30 p. m. The teams were as follows: R. G. Hardisty, captain, C. Cunningham, E. Raymer, F. Ross, J. E. Graham, J. McNamara, G. N. Weekes, Dr. McInnis, Jas. Lauder, M. Fairbanks, G. Thomson, goal. R. B. Nutt, captain, W. Patton, W. G. Doherty, F. Hardisty, W. Kelly, F. Robertson, C. W. Sutter, F. H. Peters, J. Groat, M. McIntyre, N. Playter, goal. The score was 3 for Hardisty and 2 for Nutt. The games for Hardisty's team were scored by J. E. Graham, F. Hardisty and E. Raymer. For Nutt's team, by R. B. Nutt.

The Willing Workers of the Church of England had several large tents on the ground and conducted a very successful sale of useful and fancy articles, and a most attractive dining table, in the interest of All Saints' Church.

No accidents marred the pleasure of the day except that a gust of wind blew the canvas roof off one of the temporary fruit stores near the grand stand and carried with the canvas a heavy pole, which might have done damage, but did not.

## TAXATION REFORM.

An address on Taxation reform by D. Mowat, M. L. A., before the board of trade, Regina, May 10th, 1892, has been received in pamphlet form. Mr. Mowat contends that the present system of direct taxation on real and personal property alone for school and municipal purposes is unfair, uncertain, unwise, unequal and expensive, and gives apparently fair and substantial reasons for his assertions. His proposition is that the unfairness, uncertainty, unwisdom, inequality and expense may be overcome by a tax on land without considering the improvements upon it, a percentage tax upon the annual turnover of the all merchants, traders and business men generally, a license tax upon professional men and others who carry on a lucrative business without necessarily owing or having other taxable property, and a specific tax on salaries and incomes generally. Outside of towns he would tax lands only, without regard to improvements.

Mr. Mowat's contentions as to the present system of direct taxation may be taken for granted. It must be evident that changing conditions must always be the subject of re-adjustment, and that pending re-adjustment, or as long as re-adjustment remains imperfect—as it always must in this imperfect world—there must be to some extent unfairness uncertainty, unwisdom, inequality and expense. But when it is in order to discuss the proposition by which it is expected all these objections may be avoided, there is opened up a very extensive field for discussion. On its face the proposition to tax land only without regard to the improvements upon it seems perfectly fair, but when that is decided upon, the next question as to how far the existence of improvements enhances the actual value of the land upon, or in the vicinity of, which they are. In other words, shall there be a specific or an ad valorem tax on land; shall the land be taxed per dollar in value or per acre in extent. If per dollar in value then the cost of improvements still enters into the question, in perhaps a more objectionable form than at present; and if per acre or foot, without regard to value given by improvements, a distinct hindrance is put upon the acquirement of cheap land; when what this country is crying out for is that people

may come and occupy and improve her cheap and waste lands.

To tax the dealer on his turnover rather than on his stock or capital also seems fair; but it is manifestly unfair that if two merchants are doing business alongside each other, with equal capital and equal opportunities, the one who pushes his business most, and makes the largest turnover—perhaps because he sold at the smallest profit and so gave the people cheaper goods—should have to pay the heavier taxes.

The further proposition of taxing by way of license those who practice law or medicine, or carry on a banking, loan, exchange or other business where no stock or assessable property is required to carry it on has something that may be said in its favor. Under the present system those engaged in these callings are supposed to pay a percentage on their income, something which it is very difficult to arrive at, and which as in the case of Mr. Mowat's proposition regarding the merchants, lays the heavier tax on the more enterprising and successful and therefore more valuable citizen.

The proposition to levy a specific tax on salaries is a good one, if salaries are to be taxed at all. At present they are supposed to be taxed under the head of income. But as a tax on salary is a direct tax on industry it is questionable whether or not the levying of such a tax is good policy.

The question of the method of taxation is a most important one everywhere and one that is particularly important in this Northwest. It will necessarily be a most important subject for consideration from time to time by the Northwest assembly, and Mr. Mowat is deserving of all credit for being the first member of the assembly to publicly take up the question. Without altogether agreeing with Mr. Mowat's propositions the BULLETIN believes that a moderate re adjustment in the directions he has indicated is necessary in the public interest, at the same time pointing out that great care must be used while avoiding present difficulty and unfairness, not to run into greater difficulties and more extreme unfairness.

## LUCKY BARRISTER.

Sire "Barrister" (Without dispute.)

This fine well bred Stallion will make the Season of 1892

as follows:

Every Wednesday and Saturday at M. McCauley's

Livery and Feed Stables, Edmonton; returning home

each night to his own stable, South Edmonton.

Leaving his own stable, South Edmonton, every other

Monday for Fort Saskatchewan by way of Sturgeon; re-

turning by way of Sturgeon to Edmonton by Wednesday.

TERMS.—Single service, \$7, Season \$10; \$4 down at first

service, balance on last trip. Warrant, \$12; \$5 at time of

service, balance when mare proves in foal. Five mares

insured for \$10 each. Mares not proving in foal may re-

turn next year free. All mares changing hands consider-

ed in foal. All mares served at owner's risk.

PRESENTER.—Sired by the famous Barrister, (imported)

which needs no description, and sold at auction, in Char-

lottetown, for \$2,500.

1st dam by the Wallace horse (Clydesdale). 2nd dam by

Clyde, imported from Scotland. 3rd dam by the cele-

brated McGrath horse (Clydesdale). 4th dam, Canadian

blood.

Thus, it will be seen at a glance that Lucky Barrister

is about fifteen centuries the pure Clydesdale bred, weighs

1,650 pounds 16 hands 2 inches high, as active as a stand-

ard bred trotter, and as nice a style as any horse in this

country. Docile and kind. Free from vice and blemish,

and is just the horse for this country. In color, he is a

bright bay with the characteristic marks of the Clyde,

three white feet and a small strip in the face, black mane

and tail.

He has taken more prizes on Prince Edward Island

than any horse of his age in his class, and his stock which

is only one year old is as near perfect as can be.

P. S.—Farmers! This is the best horse in the country,

therefore he is thought one to breed to. You can raise

a big horse every time. Life is too short for farmers to

raise trotters. Any further information will be gladly

given by

# LOCAL

F. B. KARRON, of Calgary, arrived on Monday's train to commence the erection of an immigrant shed at the railway station. The building will be one story, 40x25, with kitchen 12x12 in the rear. The main building will be divided into two compartments, with separate entrances. The material for the building came up on the same train as the contractor. The building is to be completed within two weeks.

F. C. GILCHRIST, chief inspector of fisheries for the Territories has written to A. E. Johnstone local fishery inspector, that he is empowered to give a free permit to each half breed family to fish in the Saskatchewan river with sixteen yards of gold eye or the same of sturgeon net. No fishing must be done for the above kinds of fish without a permit, and any infraction of the fishery laws will cause forfeiture of permit. Persons desiring to fish with more than the above quantity of net must take out a license.

Free Press: Several papers across the border have been publishing items lately to the effect that no land was being sold in Manitoba and Territories to farmers in Dakota. Mr. Hamilton, land commissioner of the C. P. R., had his attention drawn to the items referred to and to disprove the truth of the whole assertion, showed a reporter Thursday morning two vouchers from one of the company's agents in Dakota, for the first two weeks in April, with a list of the lands sold attached to each. One voucher, which was for the first week in April, showed 11,916 acres to have been sold with the agents' commissions amounting to \$595.80, and the other voucher, which was for the week of April ending on the 14th, showed 9,118 acres disposed of and \$455.90 the agents' commissions. This is the work of only one agent and the company have hundreds scattered all over the country. This land was sold to farmers who are located along the Great Northern railway in the Red River Valley. The total sales of this one man for the two weeks equalled 21,134 acres, and his commission was \$1,051.70 for the same length of time. Much of the land purchased was for spot cash and the most of it is located in Manitoba.

## LECTURE.

Rev. S. Pritchard, of Benson, Minnesota, delivered a lecture on Tuesday evening, in McLeod's hall, on the advantages and prospects of the Edmonton district. P. Daly introduced the reverend lecturer who said that during his short stay in Edmonton he had become so impressed by the peculiar advantages and brilliant prospects of the town and district that he desired an opportunity to tell the people what he, as an outsider, thought of them, in the hope that still greater confidence and energy might be inspired. He claimed to be able to speak with authority on the subject of the advantages of a country. A native of Red River, he had worked on and managed a farm from boyhood to manhood. Since then he had travelled over a great part of the United States and Canada, residing for considerable periods in localities far apart, and had visited England three times. He could say that in no part of the world that he had visited had he seen such a combination of advantages as this district possessed. In parts of the Red River valley the soil was as deep as at Edmonton, but only in parts, and there the extremes of wet and drouth were felt more severely owing to the flat nature of the country. He had seen the grain and the vegetables and the fields where they grew. The wheat was perfect. Other countries might claim as large yields, although he doubted if they could truthfully do so, but none could show the immense yield and superior quality of the wheat of the Saskatchewan valley. The barley was, if possible, better than the wheat, and the oats might easily be mistaken for barley, so plump were they. The stubble in the field was more like that of rushes than of straw, as it is generally seen. It would be his delight to inform those whom he met, on his return, of the facts regarding this region, believing that he would be doing both them and Edmonton a good turn. Edmonton should be a manufacturing as well as a commercial centre, on account of the cheapness of fuel. The wheat crop should be made into flour here instead of being shipped to Toronto, and the oat crop should be manufactured into meal. In conclusion he drew a glowing picture of Edmonton as it is to be, and gave two pieces of sound advice to the farmers and townspeople respectively. The former he advised to grow less weeds, and the latter to rise earlier in the morning. The lecture was pleasant, instructive and interesting. It is to be regretted that the attendance was not larger. The meeting was closed by singing God Save the Queen and a vote of thanks to the lecturer.

B. D. HIGGS, of the Morning Guardian, of Charlottetown, Prince Edward Island, came in on Monday's train. He is on his return from a trip to the Sandwich Islands and is collecting as much information regarding the Northwest as the limited time at his disposal permits. He went out on Wednesday's train.
